FROM: Leon Szczerbinski, Safety Officer at Orleans/Niagara BOCES

DATE: July 13, 2016

SUBJECT: AHERA Periodic Surveillance & Triennial Inspection

In accordance with Federal EPA and New York State Regulations, this is to inform you that during the month of July, 2016 the Barker Central School District buildings underwent scheduled asbestos periodic surveillance inspection, as well performing in January the 2016 Triennial re-inspection and six month periodic inspection.

The asbestos containing material (ACM) is in good condition and does not pose a threat to the health or welfare of students, staff, or the Barker community.

The ACM will be maintained in its present condition and will undergo surveillance every six months.

The District maintains an annually updated AHERA Asbestos Management Plan as per Citation 40CFR Part 763.93 (e) (10) and Part 763.93 (g). The master copy of the District's Asbestos Management Plan is located in my office and in the main office of each school building. These plans are available to school employees, parents, related organizations and members of the Barker community.
